

North Tawton Needs You

And Your Opinions

You may have heard that the Government has recently changed the planning regulations to give small communities such as North Tawton, a greater say in how their areas might develop over the coming years. Your Town Council has started to prepare one of these Neighbourhood Plans and would be very grateful for any support or advice that you can give us.

This is our starting point ... a vision for the future.

Our aim is that in future years the Town and Parish of North Tawton will be a safe, friendly and vibrant place in which to live, work and play enabling a good quality of life for all.

It will provide a sustainable, viable environment for successive generations of people, benefitting from sufficient local housing, employment, transport, community health and recreational facilities, while preserving our historical market town identity.

If you would like to help us in any way,

- do please complete the questionnaire on the reverse of this sheet. It will take only a few minutes. When you've completed it, please tear it out and drop it into the Council Office.
- Come along to our first public meeting - our launch - which we are holding at the **Devon Heartlands Community Forum** at **2pm** on **Tuesday 6th March** in the **Youth & Community Centre, Barton Street, North Tawton**. In future we shall be having some of our meetings in the evenings and on Saturday mornings.

Thanks
*Ros Rice, Town Clerk,
for The Project Team*
